

Rainbow Heart Suncatcher

To make your own you will need:
card
tissue paper (rainbow colours and white)
scissors
glue stick

To begin cut out a heart shape...cut out the inside too.

Now using your glue stick, glue white tissue paper to the underside.

Then...cut out strips of rainbow coloured tissue paper, layer it side by side in the colours of the rainbow.

Trim the tissue paper round the outside edge of the heart and it should look like this.

Add a ribbon for hanging it in a window.
And that's it!
